Cutting Depth	1-3/4"
Rip Cutting	17"
Diagonal Cutting	12"
Weight	32 lbs
PP Water Tray	Equipped

# SDT-710E

Wet Tile Saw

# Lightweight & Portable Compact

## Features

### Reusable Air Filter

Easily removed and replaced for convenient cleaning. A clean air filter enhances motor performance and longevity.

### Cutting Height Adjustment

The adjustable cutting height grants the operator the flexibility of using blades of varying dimensions and the ability to specify different cutting depths.

### Carbon Brush Motor

The 1/2 HP carbon brush motor generates a tremendous amount of torque for incredible cutting performance. The motor is protected by a reusable air filter for convenient maintenance.

### Safety Power Switch

The easily accessible power switch features a detachable safety tab that renders the saw inoperable when removed in the off position. Simply reinsert the tab before flipping the switch to the on position to reactivate the saw.

### Table Retention Device

The cutting table is equipped with a spring lock to secure the cutting table when transporting the saw from one job site to another.

The SDT-710E is an entry-level wet tile saw with an emphasis on portability that is evident in its compact and lightweight design.

Weighing just 32 lbs, it is equipped with a respectable 1/2 HP carbon brush motor and is capable of cutting tiles up to 17" in length, making it an ideal platform for DIYs and contractors working on small tile projects.
